

Summer Programs

8 Weeks.

35 Awesome Programs.

What will you discover?

BRAINIACS For children entering Kindergarten or 1st Grade

Weekly Program Rate: \$200 members / \$225 non-members
(Short Week: \$160 members / \$180 non-members)

Hours: Monday – Friday 9:00am - 1:30pm

Extended Day Program: \$75/session **Hours:** Monday – Friday 1:30pm - 5:30pm
Extended Day participants enjoy additional activities & outdoor time, weather permitting.

Summer Starts Early: 3 Programs Offered June 19–23!

MY 5 SENSES June 19 – 23

Come explore sight, sound, smell, taste, and touch in this week of sensory fun. Learn what your senses tell you about the world around you!

LET'S GET WILD! June 19 – 23

Can you move like animals do? Learn more about our wild friends, from their fur to their tails, and from their ears to their claws.

OUR PLANET EARTH June 19 – 23

Come engineer for earthquakes, practice good recycling, and learn about the amazing features that make our planet a special place to call home. You'll even make your own volcano!

DINOS June 26 – 30

Join us on a trip back in time and explore the age when dinosaurs roamed the Earth. Come find out how we can still see dinosaurs alive today!

MINI MAKERS July 3 – 7 (Short Week)

Put your imagination to work as you build, create, and construct! We'll be making new projects throughout the week as we work with tools, our hands, and even robots. You'll even make a new toy to take home!

BUG U July 10 - 14

It's a buggy world out there! Learn all about insects and arachnids in this week of creepy crawly fun!

A PIRATE'S LIFE July 17 – 21

Ahoy mateys, step aboard the good ship Discovery! Join us as we scour the seven seas. Learn how things sink and float and all about the creatures of the deep (and not so deep).

FLIGHT SCHOOL July 24 – 28

Want to earn your pilot's wings? Come discover how planes get in the air, the parts they need to work, and how pilots get where they need to go. You'll also visit a "spacecraft" to practice your flight skills!

KOSMIC KIDS July 31 – August 4

Looking for a truly out-of-this-world experience? Come be an astronaut for a week! Learn about planets, space, and our place in the solar system.

LOONEY LABS August 7 – 11

Join us for a week of wild and wacky science experiments. Slime, ooze, and lots of other fun activities—we guarantee an explosive experience!

ADVENTURERS For children entering Grades 2 through 4

Weekly Program Rate: \$250 members / \$275 non-members
(Short Week: \$200 members / \$220 non-members)

Hours: Monday – Friday 9:00am - 3:30pm

Extended Day Program: \$75/session **Hours:** Monday – Friday 3:30pm - 5:30pm
Extended Day participants enjoy additional activities & outdoor time, weather permitting.

KIDS IN SPACE June 26 – 30

Looking for an out-of-this-world experience? Want to find out what it's like in space? We'll build model rockets, see a planetarium show, and even get a chance to tour the solar system up close!

WILD WORLD July 3 – 7 (Short Week)

Ever wondered what animals live in a rainforest? Maybe you want to know what causes severe weather. You'll see how our Earth systems create the world we live in, from animals, to plants, and more!

DIG IT UP! July 10 – 14

Uncover what scientists can learn by digging in the dirt! You will be an anthropologist, archaeologist, and paleontologist. Learn about ancient people, cultures, and of course...dinosaurs!

UNDER THE SEA July 17 – 21

Dive into an undersea adventure! We'll explore the ocean world from the shoreline to the deepest depths. What lives down there? How do researchers explore the oceans? Discover all this and more during this week of hands-on fun!

ROBOTICS 101 July 24 – 28

Gear up for an exciting week on robots! You'll build and program your own robots, and you'll also get a chance to meet and play with Dash and Dot!

MAD SCIENTIST LAB July 31 – August 4

WANTED: Mad Scientists ready to get up to their elbows in all sorts of possibly yucky experiments. Must be willing to risk learning something. Explosions are possible.

DO TRY THIS AT HOME! August 7 – 11

Ever wish you could show your friends the cool experiments you did over the summer? We will take you through several science experiments that you can do to amaze people at home—with your parents' permission, of course!

Multiple Program Discount! See next page

Register online at www.discoverymuseum.org

VOYAGERS For children entering Grades 4 through 6

Weekly Program Rate: \$325 members / \$350 non-members
(Short Week: \$260 members / \$280 non-members)

Hours: Monday – Friday 9:00am - 3:30pm

Extended Day Program: \$75/session **Hours:** Monday – Friday 3:30pm - 5:30pm
Extended Day participants enjoy additional activities & outdoor time, weather permitting.

OCEAN EXPLORERS June 26 – 30

Plunge into a week of ocean exploration! Build and test simple submarines. Discover the methods we use to explore the oceans of the world. We'll even see if your counselors sink or float in homemade boats.

MAKE SOME TREBLE July 3 – 7 (Short Week)

Ever wondered how some of your favorite instruments work? Join us for a week on the science of sound and music to find out. You'll even get to make an instrument to take home! Musical talent is not required to have fun.

ROLL WITH IT July 10 – 14

Ready to take a Risk? If you get in Trouble or feel like you're in a Mouse Trap with the games you have at home, we'll help you roll the dice! Learn the mechanics and dynamics of gameplay to create your own tabletop game! You won't be Sorry.

CHEF SCHOOL July 17 – 21

Serve up some tasty science all week as we explore the science of food. Test your taste buds, learn why we prepare certain foods the way we do, and of course, try the food you prepare!

ROBOTICS 202 July 24 – 28

Try your hand at programming some of our robotic friends here at Discovery. You'll do challenges with our existing robots, and even figure out how to build one of your own. Join us for a week of building and coding fun!

SPY LAB July 31 – August 4

Your mission, should you choose to accept it: Master the skills essential to becoming a spy. Learn fingerprinting techniques, send coded messages, solve mysteries, and more!

CANDY LAB August 7 – 11

Get a taste of the sweet science of candy as we learn how different kinds of treats are made. We'll test them, too—don't forget to bring your sweet tooth!

Multiple Program Discount!
Book 5 or more programs in a single purchase and receive a 10% discount off program fees.
(Not applicable to Extended Day Program)

EXPLORERS For children entering Grades 5 through 7

Weekly Program Rate: \$335 members / \$360 non-members
(Short Week: \$268 members / \$288 non-members)

Hours: Monday – Friday 9:00am - 3:30pm

Extended Day Program: \$75/session **Hours:** Monday – Friday 3:30pm - 5:30pm
Extended Day participants enjoy additional activities & outdoor time, weather permitting.

AWESOME ANIMATION June 26 – 30

Create your own animated film! Start with traditional animation basics and use cameras and computers to bring your creations to life. You'll take your work home on a DVD to share and show off!

LEVEL UP July 3 – 7 (Short Week)

Want to play video games this summer? How about making your own? Level up your programming skills and create a game to play and impress all your friends.

SUPERHERO SCIENCE July 10 – 14

HEROES ASSEMBLE! Calling all heroes for a week of the science behind some of your favorite superheroes. Learn about their powers, the amazing feats they do, and whether what happens in comics and movies is actually possible in real life.

SPACE EXPLORERS July 17 – 21

Build model rockets, design a spacesuit for an egg, and conduct hands-on experiments. Finish the week with astronaut training and a mission to the Moon in our Challenger Center!

ROBOT MAKER July 24 – 28

Seems like robots are everywhere! Ever wish you had your own? Learn about robotics and build one to take home...sorry, your robot won't do your homework, no matter how awesome it is!

JUST LIKE MAGIC July 31 – August 4

Ever wondered how certain magic tricks are done? Or maybe how special effects work? Join us for a week of stage and screen "magic" and find out. We'll learn about chemistry, illusions, and all the science behind movie magic.

DON'T TRY THIS AT HOME August 7 – 11

Get ready for a week of the coolest, hottest, most explosive activities you can imagine. Mad Scientists and Evil Super Geniuses welcome. Don't worry, you'll be safe, but remember... *Don't Try This At Home!*

Register online at
www.discoverymuseum.org

TRAILBLAZERS For children entering Grades 6 through 9

Weekly Program Rate: \$350 members / \$375 non-members
(Short Week: \$280 members / \$300 non-members)

Hours: Monday – Friday 9:00am - 3:30pm

Extended Day Program: \$75/session **Hours:** Monday – Friday 3:30pm - 5:30pm

Extended Day participants enjoy additional activities & outdoor time, weather permitting.

MAKER ACADEMY June 26 – 30

You'll stretch your imagination and become a "maker" with the help of our tools and materials. Learn to use a 3-D printer and work with various materials to make whatever you can think up!

STAY FOCUSED! July 3 – 7 (Short Week)

Say cheese! Curious about how cameras work? Then this week is for you! Build your own photo equipment, hold a photo shoot, and explore some unusual photosensitive materials. By the end of the week, you'll be able to up your selfie game!

3-D DESIGN July 10 – 14

It's a 3-D world! Learn how to model and design using various 3-D modeling techniques and materials. Get creative and let your imagination run wild!

SENIOR SPACE ACADEMY July 17 – 21

Blast off for an adventure that's out-of-this-world! Design rockets, learn how to use a telescope, go on a mission to the Moon, and much, much more!

ROLLER COASTER SCIENCE July 24 – 28

Get into the science of all that shakes, rattles, and rolls. Experiment with the physics of amusement park rides and learn about just what goes on when you ride a rollercoaster.
